- HSC 1989, Holy Spirit College, top 10% in state in two subjects

Career Objectives

I have experienced much in my career and private life so far. I am keen to work in a situation that benefits people and provides for my children with their living expenses and education. My health at this age is very good with good eating and exercise. I could say there are two stages to my objectives: the first being, establishing appropriate employment. The second, working steadily to advance my personal position.
